

## D800 HD

DEHUMIDIFIERS

# D800 HD

## Special Features

- High capacity of 80 l/day in 30C/80Rh
- High air flow of 1600 meters<sup>3</sup>/h
- Robust design
- Large transportation wheels and central handle

## Standard Equipment

- ON/OFF switch
- Hot gas defrost system with DPS control
- Two large 250mm rubber wheels
- Steel central pull handle
- Air filter
- Continuous drain connection
- Steel panels construction
- Container compartment door
- Cord hanger
- Automatic float switch for water container with indication light

The DHG800HD is the top-of-the-line dehumidifier for those who require the highest performance in professional applications. With its mighty refrigeration system and air flow of 1600 meters<sup>3</sup>/h, the DHG800HD collects 80 liters of water at 30°C and 80% relative humidity.

Its robust steel panel design and rugged chassis allows for operation in the toughest conditions. Coming in a compact size relative to its performance, every unit comes with a pair of large 250mm rubber wheels to provide excellent handling.

Utilizing a hot gas defrost system with DPS allows for operation under an extensive temperature range for its size. The DHG800HD is ideal for large storage areas and professional applications.

**Options:**

- Condensate Pump
- Hour Meter
- Power Meter

**Available Colours:**

- Grey
- Black&Yellow
- Custom

# TECH SPEC ■

Product	D800
Model	D800
Weight (kg)	72
Dimensions (cm)	97h x 64w x 52d
Power consumption (Watts)	1700
Capacity (L/day) :	
10°C, 70% Relative Humidity	27
20°C, 60% Relative Humidity	50
27°C, 60% Relative Humidity	63
30°C, 80% Relative Humidity	80
Air Flow (Cubic meters/hr)	1600
Refrigerant	R410a
Refrigerant Charge Weight	101
Power Supply	220-240V, 50Hz
Hot Gas Defrost System	Standard
Thermostat Defrost System	NA
Electronic Sensor defrost System	Standard
Grille/Cabinet	Metal panels
Wheels	2 x 250
Handles	Central
Drainage System	Yes
Operating Control	ON/OFF
Air Filter	Yes
