

MECHANICAL FOOT SWITCH RETROFIT KIT

Accessories

Your OASIS' cooler has an alternative dispense method: the FOOT SWITCH RETROFIT KIT enables hands-free activation.

Promote safe and hygienic spaces by helping to limit high-use contact points that can harbor dangerous pathogens with our Foot Switch Retrofit Kit. Designed for OASIS bottle water coolers, these retrofit kits allow you to help keep your employees and customers safe.

The retrofit kit relocates the dispense activation to a foot pedal, eliminating the need for users to touch the unit with their hands.

FEATURES

- Economical solution for a no-touch activation
- User centered, true hands-free interface
- Quick and easy install retrofit
- Robust structure

EASY RETROFIT

**Please read the "Instruction manual" carefully before the installation*

- Simple 5-step installation
- Compatible with selected OASIS RR models.

MODELS

- Single Pedal: Either Ambient or Cold water
- Dual Pedal*: Both Ambient and Cold water
- Dual Pedal*: Hot and Cold water

**1 pedal per water temperature.*
